Project: Case Study 1

- Project
 - N teams with equal size
 - teams will remain fixed until end of semester
 - as a team, you will work on the graded SE project: CS1
 - the project is divided into ~ 11 Tasks
 - each task is a typical SE task (analysis, design, implementation)
 - counts 25% of overall grade
 - each task will be graded
 - based on documents, software and/or presentation
 - totaling to ~ 150 points
- Team rules
 - your teammates depend on your contribution
 - in the coming weeks, you will meet your team regularly during and outside the class hours (depending on project tasks)
 - if you cannot attend a meeting, you are required to
 - (1) tell your team members
 - (2) find out what you have missed
 - (3) deliver your contribution on time
 - underperforming team members will be downgraded!

Project Files

- Project files (documents, presentations, code, ...)
 - managed via sharing platform
- Each team is required to keep a small project diary with
 - meetings: date/time, attendance, minutes
 - todo's: what, who, deadline, status (open, work in progress, done)
 - use a plain text document: `doc/diary.txt`
